

Special Issue

Nanocrystalline Coating Alloy

Message from the Guest Editor

The "Nanocrystalline Coating Alloy" section is a forum for rapid publication of accounts of works pertaining to the preparation, characterization and application of all nanocrystalline coatings on Alloys. The scope of Coating characterization, Deposition and Modification comprises various coating deposition processes and surface treatments as well as microstructural/properties characterization and performance studies of the modified or treated surfaces. Also, development of novel characterization tools that are specifically designed for new nanocrystalline coatings to study their structural, protective performance and other properties are welcome in this section. All manuscripts to be considered for publication in this section will undergo a rigorous peer-review process and decisions are based on the recommendations of independent reviewers.

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
