Pharmaceutical Crystals and Its Application

Message from the Guest Editors

We are delighted to invite you to submit an article to the “Pharmaceutical Crystals and Their Application” Special Issue of Crystals.

The Special Issue on “Pharmaceutical Crystals and Their Application” aims to publish papers on novel and ordinal crystalline forms consisting of single and multicomponents, including salts, cocrystals, and solvates, and their promising new relatives, including coamorphous, liquid crystals, and nano-cocrystals.

These are successful in improving their physicochemical properties and can be used to proceed toward drug development. In addition, crystal structure analysis and relevant characterization methodology are useful to understand the drug substance and solidify the core information. The guest editors hope to share the wide range of knowledge regarding pharmaceutical crystals among many authors and readers, which will enable us to apply the cutting edge technologies to practical situation. Therefore, contributions from both industry and academia are most welcome in this Special Issue.

Guest Editors

Prof. Dr. Fukami Toshiro

Department of Molecular Pharmaceutics, Meiji Pharmaceutical University, 2-522-1 Noshio, Kiyose, Tokyo 204-8588, Japan

Dr. Yasunori Iwao

University of Shizuoka, Shizuoka, Japan

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli

Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
