

Special Issue

Crystal Engineering for Pharmaceutical Solids: Benefits and Challenges

Message from the Guest Editors

We are the guest editors of this Special Issue of *Crystals*, focusing on “Crystal Engineering for Pharmaceutical Solids”, and would like to invite you to submit original research as well as review papers on topics of your choosing.

The Special Issue aims to highlight crystal engineering benefits as well as challenges in support of overall drug product development activities in the pharmaceutical industry, with the goal of offering research scientists an opportunity for their hard-work and exciting results to gain a wider exposure. We aim to cover a range of topics within the scope of the journal, are open to discussion regarding the subject of your submission, encourage manuscripts created in collaboration with colleagues and would like to request submission by September 2022.

Guest Editors

Dr. Changquan Calvin Sun

Dr. Bhupinder Sandhu

Dr. Harsh S. Shah

Deadline for manuscript submissions

closed (15 September 2022)

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli

Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
