

Special Issue

Research Progress in Pharmaceutical Crystallization

Message from the Guest Editors

To systematically summarize the cutting-edge achievements and technological breakthroughs in the field of pharmaceutical crystallization, and to establish a communication platform bridging academia and industry, this journal specially organizes a Special Issue themed "Research Progress in Pharmaceutical Crystallization". This Special Issue collects high-quality innovative research in the field, aiming to promote the development of both the discipline and related industries. Targeting researchers worldwide, this Special Issue covers basic research and industrial transformation achievements, including core directions such as pharmaceutical polymorph screening, pharmaceutical crystal morphology regulation, and pharmaceutical formulations, with a focus on crystallization technologies and their integrated applications in formulations. Guest-edited by renowned experts in the field, the Special Issue accepts research papers, reviews, and other types of manuscripts, so as to facilitate technological iteration and the integration of industry, university, and research.

Guest Editors

Dr. Shuai Yu

School of Pharmaceutical Sciences (Shandong Analysis and Test Center), Qilu University of Technology (Shandong Academy of Sciences), Jinan 250014, China

Dr. Shichao Du

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli

Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
