

## Special Issue

# Novel Nanomaterials for Energy and Environmental Applications

### Message from the Guest Editors

Nanomaterials have revolutionized energy and environmental sciences by offering enhanced functionalities, tunable properties, and improved performance in a wide range of applications. This Special Issue, "Novel Nanomaterials for Energy and Environmental Applications", aims to highlight recent advances in the design, synthesis, and application of nanostructured materials for sustainable energy conversion, storage, and environmental remediation. This Special Issue welcomes original research articles, reviews, and perspectives that provide new insights into the development of novel nanomaterials for clean energy and environmental sustainability.

### Guest Editors

Dr. Mohtaram Danish

School of Architecture, Civil, Environmental and Energy Engineering,  
Kyungpook National University, 80 Daehak-ro, Buk-gu, Daegu 41566,  
Republic of Korea

Dr. George Kenanakis

Institute of Electronic Structure and Laser, Foundation for Research and  
Technology-Hellas, N. Plastira 100, 70013 Heraklion, Greece

### Deadline for manuscript submissions

closed (20 January 2026)

## About the Journal

### Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the crystal, where science merges with beauty and innovation.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
