

## Special Issue

# Fluorescent Complexes

### Message from the Guest Editor

We invite researchers to contribute to this Special Issue on fluorescent complexes, which is intended to serve as a unique multidisciplinary forum covering the current progress in the synthesis, characterization, emission properties and applications of fluorescent complexes. The potential topics include but are not limited to the following: - Synthesis and single crystal X-ray determination of new fluorescent complexes - X-ray determination and fluorescence emission properties of metal complexes - Exploitation of the remarkable properties of metal complexes in various existent and emerging applications - Structure- light emission properties relationship of new metal complexes based probes - Applications in analytical, biological and medical research of new metal complexes based probes

### Guest Editor

Prof. Dr. Jesús Sanmartín-Matalobos

Inorganic Chemistry Department, University of Santiago de Compostela, 15782 Santiago de Compostela, Spain

### Deadline for manuscript submissions

closed (15 April 2020)

## About the Journal

### Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

---

### Editor-in-Chief

Prof. Dr. Alessandra Toncelli

Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
