

Special Issue

Metamaterials

Message from the Guest Editor

This Special Issue aims to broadly cover up-to-date aspects of theory, design, technology, and characterization related to hyperbolic metamaterials and their current and future applications. We thus invite you to contribute your work in those areas, especially concerning the following topics:

- Effect of nonlocality in HMMs;
- Waveguides and waveguiding systems incorporating HMMs;
- HMM-based spectral and spatial filtering;
- Beam and polarization steering;
- Super-Planckian thermal emission;
- Lasing, light amplification and absorption;
- Nonlinear effects;
- Sensing;
- Technology and characterization;
- Materials, design, and technology for tunable HMMs.

Guest Editor

Prof. Paweł Szczepański

Institute of Microelectronics and Optoelectronics, Warsaw University of Technology, Warszawa, Poland

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli

Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
