

## Special Issue

# Advances in Functional Inorganic Materials Prepared by Wet Chemical Methods (Volume II)

### Message from the Guest Editors

The scope of this Special Issue of *Crystals*, entitled “Advances in Functional Inorganic Materials Prepared by Wet Chemical Methods (Volume II)”, includes but is not limited to the preparation routes, characterization, and application of functional inorganic materials, as well as hybrid materials that are important in the fields of electronics, optics, and biomedicine, among others. We would like to invite you to submit your work in the form of an original research article or a review paper related to the investigation of bulk materials, nanomaterials, or thin films.

### Guest Editors

Dr. Aleksej Zarkov

Prof. Dr. Aivaras Kareiva

Dr. Loreta Tamasauskaite-Tamasiunaite

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
