Social Determinants of Health and Breast Cancer: Impacts on Diagnosis, Treatment, and Outcomes

Message from the Guest Editors

The Special Issue of Current Oncology, "Social Determinants of Health and Breast Cancer: Impacts on Diagnosis, Treatment, and Outcomes", aims to explore the complex interplay between socioeconomic factors and breast cancer care. This issue will address how determinants such as race, ethnicity, income, education, and geographic location affect breast cancer screening, diagnosis, treatment options, and outcomes. By examining these disparities, the issue seeks to highlight barriers to equitable healthcare access and quality. Contributions from a multidisciplinary perspective, including public health, radiology, oncology, and healthcare policy, will provide insights into strategies for addressing these inequities and improving outcomes for marginalized populations. In this Special Issue, original research articles and reviews are welcome. I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I am honored and enthusiastic to serve as Editor-in-Chief of *Current Oncology*. Since its establishment in 1994, *Current Oncology* has been playing an important role in the advancement of cancer care by disseminating new knowledge in the cancer care continuum. *Current Oncology* is affiliated with several key cancer societies and provides a global platform to share scientific progress in oncology. We strive for high standards and work together to maintain a rigorous and unbiased peer review process to publish high-quality articles. We have an outstanding editorial team which is committed to the success of *Current Oncology*.

Editor-in-Chief

Prof. Dr. Shahid Ahmed
