Special Issue

Advances in Multiparametric MRI and Artificial Intelligence for Bladder Cancer: From Diagnosis to Personalized Treatment Strategies

Message from the Guest Editor

Bladder cancer remains a significant global health challenge, requiring advanced diagnostic and therapeutic strategies to improve patient outcomes. Recent advancements in multiparametric MRI and artificial intelligence (AI) have revolutionized the field of oncology, offering unprecedented opportunities for precise diagnosis, accurate staging, and personalized treatment planning. This Special Issue aims to highlight the latest innovations in these technologies and their clinical applications in bladder cancer management.

About the Journal

Message from the Editor-in-Chief

I am honored and enthusiastic to serve as Editor-in-Chief of *Current Oncology*. Since its establishment in 1994, *Current Oncology* has been playing an important role in the advancement of cancer care by disseminating new knowledge in the cancer care continuum. *Current Oncology* is affiliated with several key cancer societies and provides a global platform to share scientific progress in oncology. We strive for high standards and work together to maintain a rigorous and unbiased peer review process to publish high-quality articles. We have an outstanding editorial team which is committed to the success of *Current Oncology*.

Editor-in-Chief

Prof. Dr. Shahid Ahmed
