Special Issue

PD-1 and PD-L1 in Cancer Immunotherapy

Message from the Guest Editor

The PD-1/PD-L1 axis has emerged as a critical pathway in cancer immunotherapy, revolutionizing the treatment landscape for numerous malignancies. Immune checkpoint inhibitors targeting PD-1 and PD-L1 have demonstrated remarkable clinical efficacy across a wide range of tumor types. However, significant challenges remain, including understanding the mechanisms of resistance, identifying predictive biomarkers, and optimizing combination therapies to enhance therapeutic outcomes. This Special Issue aims to highlight cutting-edge research and advancements in the field of PD-1/PD-L1 immunotherapy.

About the Journal

Message from the Editor-in-Chief

I am honored and enthusiastic to serve as Editor-in-Chief of *Current Oncology*. Since its establishment in 1994, *Current Oncology* has been playing an important role in the advancement of cancer care by disseminating new knowledge in the cancer care continuum. *Current Oncology* is affiliated with several key cancer societies and provides a global platform to share scientific progress in oncology. We strive for high standards and work together to maintain a rigorous and unbiased peer review process to publish high-quality articles. We have an outstanding editorial team which is committed to the success of *Current Oncology*.

Editor-in-Chief

Prof. Dr. Shahid Ahmed

- College of Medicine, University of Saskatchewan, Saskatoon, SK S7N5E5, Canada
- 2. Saskatchewan Cancer Agency, Saskatoon Cancer Center, Saskatoon, SK S7N5H5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, and other databases.

Journal Rank:

JCR - Q2 (Oncology)
