

Special Issue

Updates on Diagnosis and Treatment for Pediatric Solid Tumors

Message from the Guest Editor

We are excited to invite you to contribute to our upcoming Special Issue in *Current Oncology*, titled “*Updates on Diagnosis and Treatment for Pediatric Solid Tumors*”. This Special Issue aims to bridge critical gaps in the current landscape of pediatric solid tumor research and treatment. Given your expertise, your contribution would be invaluable in enhancing our collective understanding and advancing the field. Despite significant strides being made in pediatric oncology, challenges persist, particularly in developing precise diagnostic tools and treatments tailored to children's unique physiology. The complexity of tumor heterogeneity and its role in differential treatment responses adds another layer of intricacy. Furthermore, orphan diseases and rare tumors, often lacking standard care protocols, meaning that they present unique challenges. We encourage submissions of original research, reviews, case studies, highly novel case reports, retrospective studies, or perspectives that align with these themes. Your insights could help significantly shape future directions and improve outcomes for pediatric solid tumor patients.

About the Journal

Message from the Editor-in-Chief

I am honored and enthusiastic to serve as Editor-in-Chief of *Current Oncology*. Since its establishment in 1994, *Current Oncology* has been playing an important role in the advancement of cancer care by disseminating new knowledge in the cancer care continuum. *Current Oncology* is affiliated with several key cancer societies and provides a global platform to share scientific progress in oncology. We strive for high standards and work together to maintain a rigorous and unbiased peer review process to publish high-quality articles. We have an outstanding editorial team which is committed to the success of *Current Oncology*.

Editor-in-Chief

Prof. Dr. Shahid Ahmed
