

## Special Issue

# Optimizing Surgical Management for Gynecologic Cancers

### Message from the Guest Editor

The surgical management of gynecologic malignancies is the backbone of the specialty of gynecologic oncology. Where radicality of treatment was once one of the hallmarks of the specialty, more nuanced approaches now abound. These strategies/techniques maintain or improve outcomes while minimizing toxicity and enhancing the surgical experience. This Special Issue will feature original research, reviews, and novel case reports that move the knowledge base forward towards, realizing better outcomes in the management of gynecologic malignancy. This includes new surgical approaches, pre-operative optimization, peri-operative innovations to enhance surgical recovery, de-escalation strategies, evaluations of new technology in the surgical setting, and implementation of novel service delivery models to enable surgical planning.

## About the Journal

### Message from the Editor-in-Chief

I am honored and enthusiastic to serve as Editor-in-Chief of *Current Oncology*. Since its establishment in 1994, *Current Oncology* has been playing an important role in the advancement of cancer care by disseminating new knowledge in the cancer care continuum. *Current Oncology* is affiliated with several key cancer societies and provides a global platform to share scientific progress in oncology. We strive for high standards and work together to maintain a rigorous and unbiased peer review process to publish high-quality articles. We have an outstanding editorial team which is committed to the success of *Current Oncology*.
