

## Special Issue

# Clinical Advances and Progress in the Treatment of Gynecological Cancers

### Message from the Guest Editor

This Special Issue is dedicated to recent clinical advances and progress in the treatment paradigms for gynecological cancers. The topics of this Special Issue include, but are not limited to, the following: (a) the role of poly adenosine diphosphate-ribose polymerase (PARP) inhibitors in management of ovarian cancer; (b) the role of immunotherapy in the management of advanced endometrial and cervical cancers, with an emphasis on biomarkers; (c) adjuvant therapy considerations in early endometrial cancer with molecular classifications; (d) managements of rare histologic subtypes, such as uterine leiomyosarcoma, carcinoma of vulva/vagina; (e) role of sentinel lymph node sampling in gynecologic surgery. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I am honored and enthusiastic to serve as Editor-in-Chief of *Current Oncology*. Since its establishment in 1994, *Current Oncology* has been playing an important role in the advancement of cancer care by disseminating new knowledge in the cancer care continuum. *Current Oncology* is affiliated with several key cancer societies and provides a global platform to share scientific progress in oncology. We strive for high standards and work together to maintain a rigorous and unbiased peer review process to publish high-quality articles. We have an outstanding editorial team which is committed to the success of *Current Oncology*.
