Follicular Lymphoma: Update on Diagnosis and Management

Message from the Guest Editor

Follicular lymphoma is an ever-evolving space with both a wealth and deficit of data on diagnosis, pathobiology of disease, early management, and relapse therapy. The variations of practice patterns across the globe contribute to the unique nature of managing the diversity of follicular lymphoma patients. While outcomes are improving, a cure still eludes patients. Hopefully, the research each of you carry out will one day make curing follicular lymphoma a reality. This Special Issue will provide a platform for developing a comprehensive understanding of diagnosis, prognosis, and management of follicular lymphoma with very special contributions from follicular lymphoma thought leaders.

About the Journal

Message from the Editor-in-Chief

I am honored and enthusiastic to serve as Editor-in-Chief of *Current Oncology*. Since its establishment in 1994, *Current Oncology* has been playing an important role in the advancement of cancer care by disseminating new knowledge in the cancer care continuum. *Current Oncology* is affiliated with several key cancer societies and provides a global platform to share scientific progress in oncology. We strive for high standards and work together to maintain a rigorous and unbiased peer review process to publish high-quality articles. We have an outstanding editorial team which is committed to the success of *Current Oncology*.

Editor-in-Chief

Prof. Dr. Shahid Ahmed
