REAL Canadian Breast Cancer Alliance Collection

Message from the Guest Editors

The Research Excellence, Active Leadership (REAL) Canadian Breast Cancer Alliance is a standing nucleus committee composed of clinical–academic physicians specializing in breast cancer from across Canada and Breast Cancer Canada, a patient organization. The REAL Alliance was formed and launched in December 2023 due to recognition that national collaboration is needed to address an unmet need: evidence-based guidance and recommendations, with timely updates, for use with public and government stakeholders for equitable and timely access to treatment and care for breast cancer patients. This special issue will provide guidance to physicians, other health care professionals, and policy makers for improving outcomes for patients with breast cancer across Canada.
