

Special Issue

Advances in Digital Dairy

Message from the Guest Editor

Dairy production will need to increase to meet demand from an increased global population and economic growth. Simultaneously, livestock practices are under increased pressure to decrease their negative social and environmental impacts. Technologies and digital innovations can assist dairy stakeholders with this by improving efficiency, enabling better decisions, and establishing trust. This Special Issue aims to publish research articles dedicated to current (and future) technologies and digital innovations in dairy production and processing.

About the Journal

Message from the Editor-in-Chief

Dairy (ISSN 2624-862X) is an international, peer-reviewed open access advanced forum for studies related to the advances in dairy science. It publishes reviews, regular research papers and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced.

Editor-in-Chief

Prof. Dr. Burim Ametaj
Department of Agriculture, Food and Nutritional Science, Faculty of
Agricultural, Life and Environmental Sciences, University of Alberta,
Edmonton, AB T6G 2R3, Canada

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Agriculture, Dairy and Animal Science) /
CiteScore - Q1 (Agricultural and Biological Sciences
(miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.6 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in the second half of 2025).
