

Special Issue

Recent Advances in Dairy Cattle Feeding and Nutrition

Message from the Guest Editors

Traditionally, dairy cattle nutrition concentrated heavily on strategies and nutrients that resulted in the greatest level of productivity or profitability. Today, dairy production systems must still provide good productivity and profitability but also demonstrate reduced impact on the environment and good animal welfare standards. Those involved in dairy cattle feeding and nutrition must seek innovative solutions that lessen the impact of our industry on climate change and improve animal welfare where possible. Submissions are invited for this Special Issue of Dairy in the theme 'Recent Advances in Dairy Cattle Feeding and Nutrition' to try and further our knowledge and develop concepts that see the field of animal nutrition make a meaningful contribution to the sustainability of our industry. Articles are invited in the area of dairy cattle feeding and nutrition that influence productivity, fertility, environmental sustainability, animal health or novel feed sources.

Guest Editors

Dr. Finbar Mulligan

About the Journal

Message from the Editor-in-Chief

Dairy (ISSN 2624-862X) is an international, peer-reviewed open access advanced forum for studies related to the advances in dairy science. It publishes reviews, regular research papers and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced.

Editor-in-Chief

Prof. Dr. Burim Ametaj
Department of Agriculture, Food and Nutritional Science, Faculty of
Agricultural, Life and Environmental Sciences, University of Alberta,
Edmonton, AB T6G 2R3, Canada

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Agriculture, Dairy and Animal Science) /
CiteScore - Q1 (Agricultural and Biological Sciences
(miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
