

Special Issue

Microbial Safety of Milk and Dairy Products

Message from the Guest Editors

Milk and its derivatives could be inhabited by not only beneficial but also detrimental microorganisms. Pathogenic microorganisms and their metabolites, if present in adequate amounts, may cause a risk for human health, besides an economic burden. For this Special Issue of *Dairy*, dedicated to the “Microbial safety of milk and dairy products”, we invite you to submit contributions concerning any aspect of pathogenic microorganisms occurring in milk and dairy products, as well as those related to the development and application of mitigation strategies and methods to qualitatively and quantitatively detect them and/or their harmful metabolites at any step of production, storage, and distribution.

About the Journal

Message from the Editor-in-Chief

Dairy (ISSN 2624-862X) is an international, peer-reviewed open access advanced forum for studies related to the advances in dairy science. It publishes reviews, regular research papers and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced.

Editor-in-Chief

Prof. Dr. Burim Ametaj
Department of Agriculture, Food and Nutritional Science, Faculty of
Agricultural, Life and Environmental Sciences, University of Alberta,
Edmonton, AB T6G 2R3, Canada

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Agriculture, Dairy and Animal Science) /
CiteScore - Q1 (Agricultural and Biological Sciences
(miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
