

## Special Issue

# Blockchain Applications in Data Management and Governance

### Message from the Guest Editors

In this Special Issue, we aim to provide deep insight into the applications of Blockchains in data management and governance. We invite manuscripts that discuss data management and governance topics related to Blockchain and its technologies. Systematic literature reviews related to Blockchain applications for Data are welcome. Topics of interest include but are not limited to: Data management and Blockchain

- Data Security;
- Data Sharing;
- Data Traceability;
- Data integrity;
- Data immutability;
- Data consistency.

Data governance and Blockchain

- Decentralized Autonomous Organization (DAO);
- Smart contract;
- Platforms for data governance.

Recent developments and emerging trends of Blockchain and Blockchain Applications from data perspective.

- Blockchain Analytics;
- Applications in Healthcare, Finance, and Management.

## About the Journal

### Message from the Editor-in-Chief

Data is an open access journal that publishes scientific data in a reliable, citable, and accountable manner. Data grants the opportunity to formally share valuable data, for academic credit. It covers a wide range of disciplines in which data is generated so that published data is discoverable and available for wider re-use. The journal has highly accomplished scientists from a variety of disciplines on the editorial board. The publication emphasizes clarity, honesty, quality, and novelty and has a rigorous peer-review process. We strongly encourage you to share your data vision in Data.
