Special Issue

3D Imaging, 3D Printing and 3D Virtual Planning in Dentistry

Message from the Guest Editor

In recent years, interest in 3D imaging, 3D printing and 3D virtual planning used in clinical diagnosis, surgery planning and implant fabrication in dentistry, as well as head and neck surgery, has increased dramatically. This themed Special Issue aims to cover the most recent progress in the development of technologies for image acquisition systems and 3D virtual planning software, new advances in 3D planning and 3D printing technology in dental and head and neck treatment procedures. The objective of this Special Issue is to provide a platform for oral, maxillofacial, ENT and dental scientists to share their research ideas and achievements. Prof. Dr. Claude Jaquiéry

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.
