New Perspectives in Periodontology and Implant Dentistry

Message from the Guest Editor

Scientific advances have made it possible to achieve highly predictable dental care. On the one hand, periodontal disease represents the sixth most widespread human disease, with approximately 35% of the world population affected by a form of periodontitis; it currently represents the main cause of the loss of dental elements. On the other hand, we know that the adequate control of inflammation associated with the achievement of excellent compliance by patients can stabilize the disease and allow the maintenance of teeth in the long term. Similarly, osseointegrated implantology has extremely high success rates, so researchers can focus on the augmentation of hard tissues and soft tissues using tissue regeneration techniques specific to bone tissue and soft tissue augmentation techniques, with both autologous and heterologous grafts.

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry
Department for Cranio-Maxillo-Facial Surgery, University Hospital
Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Dentistry, Oral Surgery and Medicine) /
CiteScore - Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.2 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2024).
