

## Special Issue

# Digital Implantology in Dentistry

### Message from the Guest Editors

The ongoing development of digital technologies together with novel implant macro- and microstructures started to rewrite the implant-supported rehabilitation workflow in dentistry. Enhancing immediacy and streamlining overall surgical planning and prosthetic realization acted as a valid solution to reduce the overall rehabilitation time from single teeth to complete arches.

## About the Journal

### Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.
