Rising Stars: Oral Infections and Microbes

Message from the Guest Editor

In recent years, interest in the oral microbiome and infection has undergone a tremendous evolution, mostly due to the development and diffusion of the NGS analysis of plaque and saliva samples. Moreover, recent studies have demonstrated that new diagnostic perspectives are obtainable through the analysis of salivary samples. At the same time, procedures that are involved in oral microbiota modulation have been investigated and proposed as methods to address oral diseases. Furthermore, the pandemic period gave a tremendous impetus to the research of probiotics, toothpastes, and oral rinses that have the specific aim of preventing oral disease and promoting oral health. The aim of this Special Issue is to evaluate what we know about these aspects of oral care and how these could be used to control cross-infections and modulate systemic inflammation.

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry
Department for Cranio-Maxillo-Facial Surgery, University Hospital
Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Dentistry, Oral Surgery and Medicine) /
CiteScore - Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.2 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2024).
