

Special Issue

Periodontal Photonic Therapy

Message from the Guest Editors

It is a sincere pleasure to invite you to submit a manuscript to our Special Issue - "**Periodontal Photonic Therapy**". This issue is designed to reflect the latest data in the particular field of photonic therapy, whether ablative, modulatory or disinfecting, as an option of periodontal treatment. Although these aspects have been extensively investigated, there is an ongoing search for clear therapeutic protocols, involving the setting parameters and substances, with predictable results in periodontal therapy. All systematic reviews, review articles, research articles, clinical articles, case reports, and techniques on advanced technologies and materials using the various methods of photonic therapy are of interest for this Special Issue. The editorial board is looking forward to receiving your valuable research work.

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital
