Photobiomodulation

Message from the Guest Editor

Photobiomodulation (PBM), also known as low-level laser therapy (LLLT), was developed by Endre Mester (Hungary) in 1967. It has been reported that this treatment method is not invasive. Effects such as pain relief and the promotion of wound healing can be seen not only in the medical field, but also in the dental field. However, its mechanism as to why such an effect can be brought remains unknown. In recent years, research at a cell biological level has advanced, and the mechanism is becoming apparent. This Special Issue is interested in studies about photobiomodulation or LLLT in dentistry. The editorial board invites authors to submit manuscripts with current interest of basic or clinical contents. Prof. Kenji Yoshida

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital
Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Dentistry, Oral Surgery and Medicine) / CiteScore
- Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
