New Trends in Dental Education and Dental Care

Message from the Guest Editors

Digital teaching methods and virtual training have grown in significance over the past two years due to the COVID-19 pandemic and the need to substitute in-person teaching with modern digital methods. With the introduction of dental scanning systems, mainly intraoral scanning and digital radiography, dentistry was also influenced by digitalization processes. The problem in connecting manual training with digital methods and technical dental education still represents a bottleneck when it comes to bringing new technologies into dental education processes. Digital teaching will undoubtedly have a significant impact on later independent dental practice of young dentists and on the dental care of their patients. The aim of this Special Issue is to motivate colleagues and young scientists to highlight and share new ideas and 3D virtual methods for improving dental teaching up to a digital standard, which can help to improve learning and education to a high standard, including digital methods even for manual learning.

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital
Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Dentistry, Oral Surgery and Medicine) / CiteScore
- Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
