Dentinal Hypersensitivity

Message from the Guest Editor

The aim of this Special Issue is to provide evidence-based data on innovative advances in diagnostic and therapeutic technologies in the field of dentinal hypersensitivity, from children to adults. We are delighted to invite investigators to submit original research papers in the fields previously indicated. Studies with innovative approaches or providing original information are particularly encouraged. Topics of interest may include but are not limited to:

- dentinal hypersensitivity
- dentin exposure
- enamel erosion
- gingival recession
