Special Issue

Current Concepts on Erosive Tooth Wear

Message from the Guest Editors

Recently, erosive tooth wear has become a great concern for clinicians and dental researchers because of its multi-factorial nature involving biological, chemical and behaviour factors, and can affect all age groups. with a high prevalence and of various severities. To combat this, different approaches are available based on extensive clinical and research experiences, which have cumulated a viable amount of knowledge. In this Special Issue, all review or research articles on erosive tooth wear are welcomed with the emphasis on, but not limited to, basic science, aetiology, diagnosis, clinical treatment, theory, mechanism, and multi-disciplinary approaches. The Special Issue is keen on providing a platform to record, exchange and share the scientific knowledge and evidence via the *Dentistry*, which is an open access journal, and aims at maintaining the most updated current concepts in erosive tooth wear. Dr. James Kit Hon Tsoi Prof. Dr. Chun-Hung Chu

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Dentistry, Oral Surgery and Medicine) / CiteScore - Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
