

## Special Issue

# Restorative and Esthetic Dentistry

### Message from the Guest Editor

Due to the development of dental materials and the esthetic requirements of patients, conservative restoration and esthetic dentistry is becoming more and more important. It would be good to create a platform for all researchers and clinicians to share their experiences and studies in the field of “Restorative and Esthetic Dentistry”. For promoting the development of this field and help readers to have more communication, Dentistry Journal provides this Special Issue about “Restorative and Esthetic Dentistry”. All studies about restorative and esthetic dentistry, including veneer, tooth colored inlay/onlay, bleaching, full ceramic crown, oral rehabilitation of vertical dimension loss, direct and indirect composite resin restoration, dentin bonding agents, resin cement, zirconia implant, vital pulp therapy, biodentine, mineral trioxide aggregate (MTA), resin adhesive bridge, Maryland bridge, gingival esthetics, digital impression, laser cavity preparation, fiber post, and conservative restoration, are very welcomed.

### Guest Editor

Prof. Dr. Min-Huey Chen

Graduate Institute of Clinical Dentistry, School of Dentistry, National Taiwan University, Taipei 10617, Taiwan

### Deadline for manuscript submissions

closed (30 March 2019)

## About the Journal

### Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.
