Special Issue

Dental Hygiene and Epidemiology

Message from the Guest Editors

Oral hygiene is very crucial for all disciplines of dentistry; good oral hygiene is important for prosthodontic patients, surgical patients, pediatric patients, restorative patients, and orthodontic patients. Oral Epidemiology allows the analysis of the causes and effects of oral disease conditions by identifying risk factors for disease and targets for preventive healthcare. Epidemiology research could help clinicians in the understanding of disease causation, investigation and surveillance. Potential topics include, but are not limited to, the following research areas:

- Periodontal disease
- Plaque composition
- Plaque removal
- Prevention
- Teaching
- Diet supplementation
- Brushing techniques
- Laser-assisted treatments
- Fluoride
- Sealants
- Oral hygiene control in prosthodontic patients
- Oral hygiene control in surgical patients
- Oral hygiene control in pediatric patients
- Oral hygiene control in restorative patients
- Oral hygiene control in orthodontic patients
- Whitening systems

Guest Editors

Dr. Andrea Scribante

Unit of Orthodontics and Paediatric Dentistry, Section of Dentistry, Department of Clinical, Surgical, Diagnostic and Paediatric Sciences, University of Pavia, 27100 Pavia, Italy

Prof. Dr. Mona A. Montasser

Department of Orthodontics, Faculty of Dentistry, Mansoura University, Mansoura 35516, Egypt

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Dentistry, Oral Surgery and Medicine) / CiteScore - Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
