

## Special Issue

# New Frontiers in Orthodontics

### Message from the Guest Editor

New Frontiers in orthodontics aims to express the ongoing debate in orthodontics. Orthodontics is a dentistry area in continuous evolution, which draws from the most recent technological innovations, as well as from the most accredited scientific reports and practical experience, the basis for updating knowledge in the field. This Special Issue provides a comprehensive view of the state-of-art in orthodontics, outlined by research experts from different countries, to clarify emerging directions in the orthodontic field. The present Special Issue covers a variety of topics, including technological innovations, orthodontic materials, the management of malocclusion and temporomandibular disorders, the epidemiology and risk factors in orthodontics, the preventive approach to malocclusions and temporomandibular disorders, and the differences between growing and adult patients. Keywords: orthodontic appliances; orthodontic treatment; interceptive orthodontics; temporomandibular joint disorders

## About the Journal

### Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.
