

## Special Issue

# Soft and Hard Tissue Regeneration

### Message from the Guest Editors

This special issue entitled "Soft and hard tissue regeneration" will cover both periodontal and implant therapies. Regenerative periodontal treatment goal is to restore functional periodontal support offering a valuable treatment alternative even for teeth with large periodontal destruction, which may be successfully treated and maintained in health for long periods. In most cases where teeth are extracted for periodontal reasons, implant therapy will demand large bone augmentation procedures. This special issue will have a definite clinical orientation, and be entirely dedicated to soft and hard tissue regenerative treatment alternatives, both in periodontal and implant therapy, discussing their rationale, indications and clinical procedures. Internationally renowned leading researchers and clinicians will contribute with articles in their field of expertise.

### Guest Editors

Prof. Dr. Carlos E. Nemcovsky

Department of Periodontology and Dental Implantology, School of Dental Medicine, Tel Aviv University, Tel Aviv, Israel

Prof. Dr. Miron Weinreb

Department of Oral Biology, School of Dental Medicine, Tel Aviv University, Tel Aviv 69978, Israel

### Deadline for manuscript submissions

closed (30 May 2019)

## About the Journal

### Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.
