## In Memory of Raffaele Gianotti

### Message from the Guest Editor

This collection of scientific papers is dedicated to the memory of Professor Raffaele Gianotti. He was the Head of Dermatopathology Laboratory, Dermatological Clinic, University of Milan, Milan, Italy. His essential vision of dermatopathology without frills, as the product of an indispensable integration between the clinic and the microscope has guided his work for decades. We cannot forget his creative enthusiasm, his availability, his feverish ardour for new discoveries, his essential accuracy, his essential, albeit silent and hidden reference to the gigantic shadow of the father, his essential informality. Hello Raffaele, a friend forever. We will miss you.

## About the Journal

### Message from the Editor-in-Chief

I have the great pleasure of announcing that *Dermatopathology* has received an updated Impact Factor of 1.6 for June 2024, maintaining its position as the highest rated Impact Factor journal among all the existing dermatopathology journals (with an increasing impact on clinico-pathological correlation articles for clinical dermatologists).

This immense success is a result of the excellent work of our Editorial Team, who have engaged in the meticulous selection and peer reviewing of high-quality articles covering different aspects of cutaneous pathology. This journal publishes case reports, communications, full articles, research articles and reviews on clinical, molecular, and investigative dermatopathology in several Special Issues per year. The journal's publications are indexed in PubMed. I encourage all the specialists in cutaneous pathology to submit any original research to *Dermatopathology*.

---

### Editor-in-Chief

Prof. Dr. Gürkan Kaya

1. Department of Dermatology, University Hospital of Geneva, 1205 Geneva, Switzerland

2. Department of Clinical Pathology, University Hospital of Geneva, 1205 Geneva, Switzerland
