Deadline for manuscript
submissions:

closed (31 October 2022)

Message from the Guest Editor

Dear Colleagues,

As Guest Editor of this Special Issue of *Diabetology* titled "Novel Diagnosis and Therapeutic Strategies for Gestational Diabetes", I am inviting you to submit an original research article/review paper on the topic. *Diabetology* (ISSN 2673-4540) is an international open-access journal.

In this Special Issue of *Diabetology*, we invite researchers to submit their works focusing on novel biomarkers and/or therapeutic targets in gestational diabetes.

The official deadline for submitting papers is 15 April 2022, and the instructions on how to proceed with writing will be available on a dedicated web page. Research areas may include (but are not limited to) the following:

- Successful strategies to prevent GDM;
- Biomarkers and mechanisms that can predict pregnancy complications, and on the long-term metabolic risk;
- New therapeutic strategies on short- and long-term clinical outcomes of pregnancy complicated by gestational diabetes.

I look forward to receiving your contributions.
