

Special Issue

Insulin Therapy: New Technologies and Future Perspectives

Message from the Guest Editor

This Special Issue will begin with the history of insulin therapy before delving into the issue's focus on new technologies and future perspectives. Authors are invited to submit original research and review articles covering various facets of modern insulin treatment, including the following:

- Short-acting and long-acting insulin formulations;
- Innovations in dosing regimens;
- Therapeutic inertia;
- Pump and non-pump methods of delivering insulin;
- Challenges and gaps in current insulin therapy practices;
- The future of insulin management.

We welcome contributions that provide new insights, address current challenges, or present innovative approaches in the field.

Guest Editor

Prof. Dr. Betül Hatipoğlu

University Hospitals Cleveland Medical Center, CWRU School of Medicine, Cleveland, OH, USA

Deadline for manuscript submissions
