Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editor

Dear Colleagues,

The purpose of our special issue is to provide an overview of cerebral venous sinus thrombosis and to provide evidence-based recommendations for its diagnosis and management. Cerebrovenous thrombosis (CVST) accounts for only 0.5% of all strokes. It has variable clinical presentation and its diagnosis might be challenging at times. Delays in timely diagnosis and treatment initiation might lead to poor neurological outcome. A clinical suspicion in conjunction with neuroradiological diagnostic support are required in the diagnosis. Our special issue focus on current knowledge on the risk factors, challenges with diagnosis, neuro-imaging, management options with focus on the role of endovascular mechanical thrombectomy, thrombolytic therapy and direct oral anticoagulants and also prognosis of CVST in adults, and highlights some areas for future research.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Medicine, General & Internal*)
