Artificial Intelligence in Clinical Medical Imaging Analysis

Guest Editor:

Dr. Md Mohaimenul Islam

Graduate Institute of Biomedical Informatics, College of Medicine Science and Technology, Taipei Medical University, Taipei 11031, Taiwan

Deadline for manuscript submissions:

closed (30 April 2023)

Message from the Guest Editor

Artificial intelligence (AI) has generated tremendous global attention in recent years. Compared with traditional methods, AI has emerged as a major frontier in healthcare. It has been widely applied to medical imaging analysis to revolutionize the current procedures for disease diagnosis and treatment. Indeed, it has shown excellent performance to identify imaging abnormalities that are not easily amenable to human identification. Previous evidence has also shown that AI models have outperformed radiologists in disease screening. The performance of AI models clearly demonstrates that AI can improve work efficiency and enable radiologists to be more productive. AI-based tools would undoubtedly be mainstream tools for typical medical imaging analysis tasks such as diagnosis, segmentation, or classification. The aim of this Special Issue is to assess the diagnostics accuracy of AI techniques (deep learning/machine learning) for disease diagnosis/detection using medical imaging analysis.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
