Message from the Guest Editor

Colorectal cancer (CRC) is the third most common cancer in men (10% of all cancers) and the second most common cause of cancer in women (9.2% of all cancers). As you are all aware, the liver is the most common metastatic site in CRC. Approximately 15–25% of CRC patients develop synchronous liver metastases, and another 20–25% of them develop metachronous metastases. As the title suggests, this Special Issue aims to address the most recent advancements in the diagnosis, treatment, and multidisciplinary management of CRC liver metastases.

Novel diagnostic approaches (in particular MRI with hepato-biliary contrast agents and diffusion-weighted imaging, intraoperative ultrasound, and PET-MRI) are now available, although they are not always routinely used in clinical practice. However, the correct timing and the respective role in the diagnostic management is very much debated, even in dedicated multidisciplinary teams.

The aim of Special Issue is to provide a collection of review articles and original contributions on the above-mentioned topics, with the intent of improving the quality of patients' care.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Medicine, General & Internal*)
