Glaudemans**

Prof. Dr. Mike M. Sathekge

Deadline for manuscript
submissions:
closed (31 March 2023)

Message from the Guest Editors

In this Special Issue on fungi, we invite reviews and original articles that include—but are not limited to—the following:

1. Advances in our knowledge of the genetics and the microbiologic mechanisms by which fungi resist destruction.
2. New insights in human immune response, and the mechanisms by which fungi are able to evade this.
3. New diagnostic and therapeutic platforms in managing these fungal infections.
4. New paradigms of multidisciplinary management of fungal infections.
5. Potential therapeutic strategies that may augment the current strategies.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.7 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2023).
