Biomedical Insights that Inform the Diagnosis of ME/CFS

Guest Editors:

Dr. Brett Lidbury

The National Centre for Epidemiology and Population Health, Research School of Population Health, College of Health and Medicine, The Australian National University, Canberra, ACT 2601, Australia

Dr. Paul Fisher

Department of Physiology, Anatomy and Microbiology, La Trobe University, Bundoora, VIC 3086. Australia

Deadline for manuscript submissions:

closed (31 May 2019)

Message from the Guest Editors

Dear Colleagues,

A consortium of Australian researchers have come together to understand ME/CFS systematically, ranging from a deep analysis of clinical and pathology data, to metabolomic profiles and the investigation of mitochondrial function. From this broad collaboration, a number of compelling insights have arisen that may form the basis of specific serum, blood, and/or urinary biomarkers of ME/CFS.

The Special Edition contains all of the speaker submissions and other accepted manuscripts contributing to our objective for Biomedical Insights that Inform the Diagnosis of ME/CFS.

ME/CFS. The biological basis, diagnosis, treatment, and management.

International Research Symposium

12-15 March 2019, Australia.

Proudly hosted by Emerge Australia

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
