Message from the Guest Editor

Dear Colleagues,

During the last few decades, computed tomography (CT), magnetic resonance imaging (MRI), nuclear medicine, and computer-aided diagnosis (CAD) including artificial intelligence (AI) are continuously progressed in the Radiology field, providing new information in routine clinical practice, and answered various academic or clinical questions. In addition, pulmonary functional imaging has continuously progressed and tried to be clinically set for assessing not only lung parenchyma diseases but also thoracic oncologic diseases.

In this situation, this special issue of *Diagnostics* is planned for providing information about state-of-the-art pulmonary functional imaging with CT and MRI as well as quantitative analysis using CAD or AI.

Dr. Yoshiharu Ohno

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
