submissions:

closed (30 November 2019)

Message from the Guest Editor

Dear Colleagues,

The editorial team of *Diagnostics* is setting up a new Special Issue on PET in early response evaluation in cancer management.

This Special Issue will cover advances in PET methodology, with special consideration of its application in the field of early response in chemotherapy and radiation therapy. Submissions will be invited covering the clinical role of PET tracers, such as FDG and FLT, in the follow-up of oncologic malignancies.

This publication will especially address early response in the therapy monitoring of new pharmaceuticals and biologicals. In addition, new radiopharmaceuticals will be discussed for their potential in this section of clinical oncology.

Prof. Dr. Kalevi Kairemo

Guest Editor

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
