## Advances in Diagnosis and Pathophysiology of Microvascular Dysfunction

Guest Editor:

**Dr. Yih-Kuen Jan**

Rehabilitation Engineering Lab,  
University of Illinois at Urbana-  
Champaign, Urbana, IL, USA

Deadline for manuscript  
submissions:

**closed (30 June 2021)**

### Message from the Guest Editor

Microcirculation is the system that brings oxygen and nutrients to local cells and removes metabolic wastes. The study of the structure, function, and adaptation of the microvascular system has played an essential role in understanding cardiovascular diseases. Recent advances in computational models and imaging technologies have provided new opportunities to investigate microvascular dysfunction.

The objective of this Special Issue is to bring together researchers from various fields to better understand the role of microvascular dysfunction in the development of diseases using advanced computational dynamics, novel imaging technologies, and theoretical models. This Special Issue also welcomes the applications of these novel methods and technologies in various clinical patients for early diagnosis of microvascular dysfunction and better understanding of the role of microvascular dysfunction in progression of various diseases. All topics related to the recent advances in diagnosis and pathophysiology of microvascular dysfunction are welcome.

## Editor-in-Chief

### Prof. Dr. Andreas Kjaer

Department of Clinical  
Physiology, Nuclear Medicine &  
PET National University Hospital,  
Rigshospitalet, University of  
Copenhagen, Blegdamsvej 9, DK-  
2100 Copenhagen, Denmark

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*)
