Advances in Computed Tomography Imaging for Clinical Diagnosis

Message from the Guest Editor

I would like to invite you to submit your work to the Special Issue on "Advances in Computed Tomography Imaging for Clinical Diagnosis". This Special Issue aims to present the latest developments in computed tomography (CT) imaging, including new image reconstruction methods and clinical applications, to enhance clinical diagnosis. Thanks to recent technological advancements, such as spectral imaging (including dual-energy CT and photon-counting CT) and artificial intelligence-based image analysis, the accuracy and diagnostic potential of CT imaging are continuing to improve. With your contributions, this Special Issue will provide valuable insights into the current state and future directions of CT imaging for clinical diagnosis. We are excited to have your contributions and believe your research on this topic will greatly benefit the medical imaging community. We look forward to your submissions and participation in this exciting Special Issue.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
