New Insights into Endoscopy-Guided Diagnosis

Message from the Guest Editor

I am delighted to introduce a collection dedicated to exploring “Novel Methods in Endoscopy-Guided Diagnosis” for patients with gastrointestinal, hepatic, and pancreatobiliary diseases. Endoscopy continues to evolve as a cornerstone of precision medicine, offering innovative diagnostic possibilities. This Special Issue focuses particularly on advanced techniques in magnifying endoscopy, endoscopic ultrasonography (EUS), peroral cholangiopancreatography, and artificial intelligence-guided endoscopy. It not only highlights advanced imaging techniques but also details various methods for tissue sampling, such as biopsies for gastrointestinal diseases, EUS-guided tissue acquisition, and cholangiopancreatography-guided biopsies. These innovative approaches are transforming clinical practice and improving diagnostic accuracy. We welcome original research articles, case studies, case reports, and reviews on the various novel approaches that deepen our understanding of the role of endoscopy in challenging diseases.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
