Laboratory Medicine: Extended Roles in Healthcare Delivery

Message from the Guest Editor

Laboratory Medicine is well recognized as pivotal to the diagnosis, exclusion and management of most disease processes. Laboratory medicine, however, should be much more than just a factory that produces precise, accurate quality-assured results. We, therefore, have selected reviews on the extended roles of laboratory medicine in healthcare delivery, machine learning, anaemia in pregnancy, point of care testing (POCT) in the community, and the concept of algorithm-based “intelligent testing”.

Guest Editor

Prof. Dr. Rousseau Gama

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
