

## Special Issue

# Diagnosis, Management and Clinical Features of Gastrointestinal Diseases

### Message from the Guest Editor

The field of gastroenterology has achieved many advances in recent years, including in modern diagnostic testing, invasive therapeutic procedures, drug therapies, and, in some cases, the conception of pathologies. These developments have been enabled by new knowledge of biological systems and processes and technological advances related to these areas. Moreover, the intensification of the activities of scientific societies favors multicentric and multidisciplinary work. Knowledge is disseminated and a route forward for the discipline can be derived from the comparison of differing treatment techniques. Patient care has improved. The clinical course of diseases has been transformed to the advantage of the quality of life of the patient, who lives the passage of time in a very different way than in the past. Additionally, technological progress is providing the opportunity to take further steps quickly in order to improve knowledge and care. The topic of this Special issue is of paramount significance and relevance for the role it can play in shedding light on recent advances in the diagnosis, management and clinical features of gastrointestinal disorders.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
