

## Special Issue

# Type 2 Inflammatory Disorders: From Eosinophilic Gastrointestinal Disorders (EGIDs) and Beyond

### Message from the Guest Editors

The forthcoming Special Issue on type 2 eosinophilic inflammatory disorders aims to curate cutting-edge research within the field of type 2 inflammatory disorders, involving not only the GI tract, mainly eosinophilic esophagitis (EoE), and to a lesser extent other rarer EGIDs, but also embracing the whole spectrum of Th2-driven diseases, such as atopic dermatitis (AD), asthma, chronic rhinosinusitis with nasal polyps (CRSwNP), and many more. This Special Issue invites paper submissions that focus on various type 2 inflammatory diseases in order to highlight the intricate interdependency of various organs and regions in the pathogenesis of Th2-driven disorders, in the attempt to highlight the multidisciplinary approach needed to manage complex overlapping features in these patients. This Special Issue strives to advance our understanding and capabilities in the domain of type 2 inflammatory diseases, advocating for the combined effort of gastroenterologists, allergologists, ENT specialist, dermatologist, and many more, with the ultimate objective of enhancing patient care and outcomes.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
