Eye Disease: Diagnosis, Management, and Prognosis

Message from the Guest Editor

The human eye is a marvel of biological engineering, enabling us to experience the world in vibrant detail. However, a wide range of diseases can threaten this precious sense. Early and accurate diagnosis, coupled with effective management strategies, is crucial for preserving vision and improving patients' quality of life. This Special Issue of *Diagnostics* aims to explore the latest advancements in eye disease diagnosis, management and prognosis. We invite submissions that address the evolving landscape of ophthalmology and contribute to improved patient care. We encourage submissions from a variety of research disciplines, including ophthalmology, biomedical engineering and computer science. This Special Issue welcomes original research articles, reviews and perspectives that advance the field of eye disease diagnosis, management and prognosis. We look forward to receiving your valuable contributions! Sincerely,

Guest Editor

Dr. Adam Wylęgała

Health Promotion and Obesity Management Unit, Department of Pathophysiology, Faculty of Medical Sciences, Medical University of Silesia, 40-760 Katowice, Poland

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
